about engagement in San Francisco and then visit New York.

Black Crook.—The Crook still keeps on the even tenor of its way with a large troupe of melodeon actors and actresses, introducing new features almost nightly. The place is devoted to fun and all is free and easy throughout. A duo bill will be presented this evening.

New Boilers.—The Yellow Jacket Company have just received and will at once set up two new boilers, each 16 feet in length by 24 inches in diameter. Each boiler contains 50 three-inch tubes. The boilers were manufactured at the Pioneer Boiler Works.

The omnibus line plying between this city and Gold Hill is being well patronized this summer. Our people all seem to have made up their minds that it is much cheaper to pay two bits for a ride than to walk during this hot weather.

Not So.—There was a report on the streets last evening that a miner in the Chollar-Potosi had been caved on and fatally injured. Upon tracing the matter up we found that a workman in the mine had sprained himself. To give—no smashing of bones!

Overhauling.—The Kentuck Company are engaged in overhauling their hoisting works. They are putting in new reels, repairing their shaft, and putting everything in order for a long siege of heavy work.

Low Fares.—The old line of Dayton stages leaving that town in the morning charges but four bits to this city and intermediate points. Nobody can complain of this as extortionate.

Our markets are well supplied with apples, peaches, plums, pears, grapes and every other kind of fruit now in season—watermelons and muskmelons are also plenty.

For Sunday Accommodation.—After this date the stage office of Wells, Fargo & Co. will be open on Sundays from 2 to 4 o'clock p. m., for the accommodation of those wishing to secure seats in the stages to California.

The Corro Gordo mines are still well spoken of. Parties who left this city a few weeks since to look after interests in various leads in that section express themselves as being perfectly satisfied with their mines.

Freight teams, loaded with merchandise for our business houses, continue to throng our streets. Our merchants appear to be determined to take time by the forelock this season.

Telegraphic.—There are messages at the Telegraph office for the following persons: Misses Kelly and C. Morales or Lottie Morales.

New Appointment.—Mr. A. Baker has been appointed route agent for the western division of the Overland Stage Company's line.

Large quantities of wood are now coming into the city from Washoe. Ten cords to one team is a load by no means unusual.

Our mills are now at work day and night and we hear no complaint of a scarcity of flour.

Good Report.—There is said to be very good shooting just now about Peardus—the game being grouse and sage hens.

...property? It is a nuisance where it should and should be removed by the most expeditious legal means, and no other. When our city authorities find out what is the matter we hope that the wrong, whatever it is, may be righted "by the most expeditious legal means, and no other." Such is our prayer. Let our authorities do nothing except by the "most expeditious legal means." Let there be no irregular proceedings against said building. The days of the "Vigilantes" are past. Its being advertised "to rent" is of course against the building; yet keep cool and proceed only by the "most expeditious legal means."

FROM LONE PINE.—We were yesterday shown some very fine specimens of ore from Lone Pine, Inyo County, California. The majority of the specimens are argentiferous silica, but very rich in silver—so rich as to wholly destroy the regular silica-crystallization. Among other curious mineral specimens was a large piece of asbestos, so pure that it could be twisted into strings. This mineral has been tried by the Mexicans as a lining (mixed with clay) for furnaces, but it does not seem to answer the intended purpose as well as bone ashes, which is now generally used.

Under the heading of "Pretty Sight" an evening cotemporary says: "What is? Why, a ship under full sail, or (we'll ship the sailor's second), a train of cars in motion, or—next to 'em—the stages of Wells, Fargo & Co.—three six-horse coaches—rolling out of Virginia at 8 o'clock every evening. They prance forth like you take notice. We would advise the passenger either of the above to soak his head for a month or two. They prance forth like good-baying!

IN OPERATION.—At present we do not know of an idle mill in the State. All are at work, and there is ore for all. Many of our leading mills are increasing their capacity, and on every side are to be seen signs of the prosperity of our young State. It is not only in mills, but in every branch of trade and industry, that we see improvements throughout the city. Business houses are being enlarged and refitted, and new houses are daily being opened.

THE GOLD HILL FAIR.—The Fair in Gold Hill, given by the ladies of St. Patrick's Church, is proving to be a most successful venture. The hall is crowded nightly, and there can be no little doubt that a sum sufficient to liquidate all the debts standing against the church edifice will be realized. It will continue during the week and will wind up in a grand ball next Monday night. Let our people go down and assist their neighbors of Gold Hill.

BRICK CHOCK.—The attendance at the Crook last night was good, and a high old performance was given. All kinds of fun—songs, dances, juggling, acts, and farces. No restriction upon anybody; lager beer drinking and smoking allowed, and all given the liberty of moving about and singing and doing pretty much as they please, so long as they do not interfere with the enjoyment of others. The bill for to-night is an excellent one.

INSURANCE AGAINST ACCIDENTS.—Go to Sprague, Gould & Curry office, and be insured against accidents. In case you are hurt after being insured you get a liberal weekly allowance until you are able to work. This is better than insuring your life, for once you are dead the money of the insurance companies will be of mighty little use to you. They can give you no checks that will pay for grub in that "bourn from whence no traveler returns" to curse his backer.

REPORT

OF

J. ROSS BROWNE

ON THE

MINERAL RESOURCES

OF THE

STATES AND TERRITORIES WEST OF THE ROCKY MOUNTAINS.

PUBLISHED BY H. H. BANCROFT & CO.,
SAN FRANCISCO, CALIFORNIA.
1868.

ORMSBY COUNTY

No mineral production is recorded from Ormsby County.

There were a number of mills operating along the Carson River during the sixties, seventies, and early eighties. The ore came from the Comstock Lode, therefore the tonnage and gross yield is included in the figures for Storey and Lyon Counties. No bullion tax was paid to Ormsby County.

However, it is known that there has been some production from properties within the county boundaries.
